INTEGRABILITY IN DYNAMICAL SYSTEMS[a]

Editors

J. ROBERT BUCHLER, JAMES R. IPSER, and CAROL A. WILLIAMS

CONTENTS

Preface. *By* J. ROBERT BUCHLER, JAMES R. IPSER, and CAROL A. WILLIAMS vii

Resonant Integrable Galactic Models. *By* G. CONTOPOULOS 1

Integrable Models for Galaxies. *By* TIM DE ZEEUW 15

Integrable Galactic Models. *By* C. HUNTER 25

New Integrable Systems. *By* JARMO HIETARINTA 33

Painlevé Expansions for Integrable and Nonintegrable Ordinary Differential Equations. *By* M. TABOR 43

Solving the Vlasov Equation in General Relativity by Particle Simulation. *By* STUART L. SHAPIRO and SAUL A. TEUKOLSKY 53

Repulsive and Attractive Double-Bubble Space–Times. *By* JAMES R. IPSER 77

Integrability of Magnetic Confinement Systems. *By* R. V. E. LOVELACE 81

Eternity, Chaos, Lie Algebras, Integrability, and Accelerator Design. *By* ALEX J. DRAGT 83

Hannay's Angle and Berry's Phase in the Classical Adiabatic Motion of Charged Particles. *By* ROBERT G. LITTLEJOHN 87

Integrability of Nonlinear Wave Equations. *By* H. H. CHEN and J. E. LIN 91

Normalization in the Face of Integrability. *By* ANDRÉ DEPRIT and BRUCE R. MILLER 101

Simplifications toward Integrability of Perturbed Keplerian Systems. *By* SEBASTIAN FERRER and CAROL A. WILLIAMS 127

Index of Contributors 141

[a]The papers in this volume were presented at the Third Florida Workshop in Nonlinear Astronomy, entitled Integrability in Dynamical Systems, which was held on October 1–2, 1987 in Gainesville, Florida.
